

# Freedom to pay in a simpler way

**Simplify  
the way you  
pay today!**

## Apple Pay, Google Pay and Masterpass are here!

Make quick and secure debit card purchases—without the card! Tokenization, a process that replaces a card's number with a specially generated code (a "token"), allows you to enroll your card into the Apple Pay, Google Pay or Masterpass apps. Conveniently stored in your smart phone, your "digital wallet" eliminates the need to swipe or insert a debit card—making the checkout experience easier than ever before.
